

IT SOLUTIONS FOR SMALL BUSINESS

We understand small business. We have the technical knowledge to get the job done correctly. Technology training, website development, website hosting, consulting and knowledgeable support are our specialties.

Not very long ago, the decision to apply information technology to a new small business was optional. Business owners knew that information technology (IT) was complex and expensive. Customers were not necessarily technology savvy, and most small businesses could interact with customers in person or on the phone. Today, having both a web presence and an e-mail address is a business necessity. Conducting business online is no longer a novelty—it's the norm.

The good news is that basic small business IT is not necessarily complex or expensive. Oriac Technology Partners is uniquely positioned to provide you with IT solutions that fit your business well, and can grow as your business grows. Better yet, our solutions are available to you at reasonable cost. Benefit from our expertise and our experience—call or e-mail us today for more information and a free consultation.

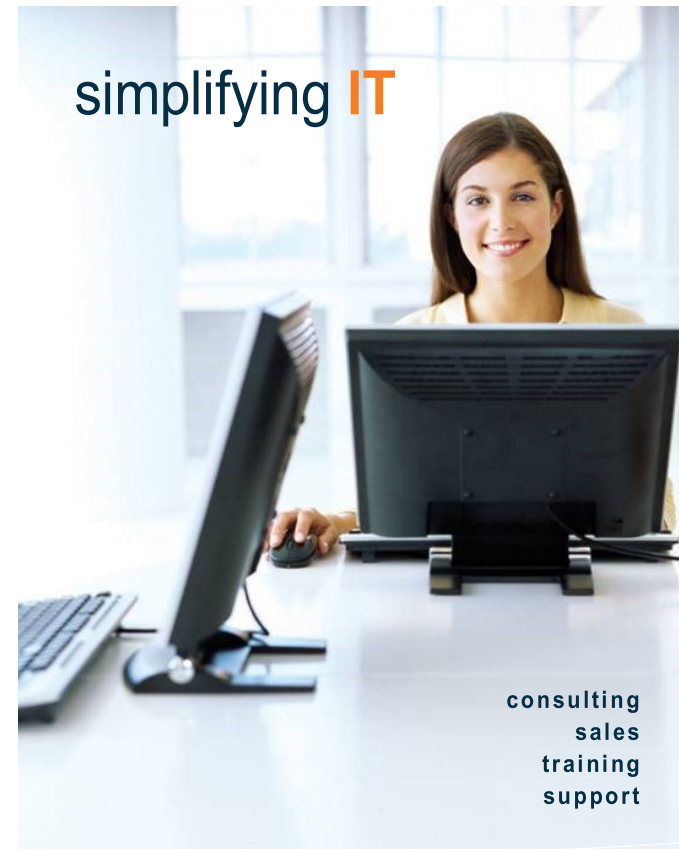

- Surprisingly reasonable rates-no project is too small
- Professional, knowledgeable, experienced

It is important to use a technology consulting firm that understands your business. They must have the cutting edge technical knowledge to get the job done correctly. They must be reasonable in cost, and quick to respond. You can be sure that when you engage us for your important project, you will be well satisfied with the result.

flexible solutions for your business needs

WEBSITE DEVELOPMENT

Oriac Technology Partners can provide end-to-end solutions that meet your goals for a vibrant and appropriate web presence. Whether it be advice on internet strategy, web site design and/or development, or web site hosting, we can help. Because of our extensive experience in business and technology we can provide you with sound advice and effective solutions at a very reasonable cost.

TRAINING SOLUTIONS

We provide hands-on classroom instruction, seminars, and individualized one-on-one training. Ernie Puglisi - Instructor and Consultant holds a Master's Degree in Information and Educational Technology from Appalachian State University and has over 20 years of information technology experience. We offer expert instruction on popular applications, PC security, web marketing, and more.

CUSTOM SOLUTIONS

Our wide range of experience and qualifications in corporate technology, educational technology, and small business can help you with any technology requirements. Contact us today for a free consultation.

WEB HOSTING SOLUTIONS

Hosting rates start as low as \$5.95 per month based on 6 month billing in advance. We have flexible plans to meet your requirements for reliable web hosting.

E-MAIL SOLUTIONS

Need an e-mail account without annoying advertising flashed at you or ad tag lines at the bottom of e-mails you send, we can provide to you a POP3 e-mail account without all the ads, and with web access to your e-mail. Contact us for our low rates or to sign up for ad free e-mail today.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?
